

Vulnerability Assessment Report

Target: 192.168.1.1

Risk Score: 0.0/10

Minimal Risk

Scan Details

Target:	192.168.1.1
Scan ID:	#5
Status:	Pending
Started:	2026-05-13 09:22:50
Finished:	N/A
Modules:	port, web, ssl, dns, cve
Total Findings:	0

Severity Summary

Critical	High	Medium	Low	Info
0	0	0	0	0

Executive Summary

A vulnerability assessment was conducted against 192.168.1.1 using the PyVAF framework. The scan identified 0 security findings across 5 scanning modules. The overall risk score is 0.0/10 (Minimal Risk). Detailed findings with remediation guidance are provided in the sections below.

Detailed Findings (0)

No findings recorded for this scan.
